Los Angeles Center of Excellence

In the engagement session, COE will be presenting LMI-related information for SWP applications. COE has continued offering their Labor Market 101 workshops. They are also in the process of creating a lookbook for these applications by sector. The U.S. Bureau of Labor Statistics has just updated their 10-

year employment projects that go from 2021 to 2031. The year 2021 was used as a base year, and, in the report, they included press releases, videos, graphics of employment and unemployment rates, and some of the fastest growing occupations. The report also shows jobs that were not fully recovered at the beginning of 2021 due to the pandemic having a projected increase across the nation.
