AC MARTIN

DATE

March 7, 2023

TIME

11:30 AM

LOCATION

ZOOM

Program Requirements

Interns must currently be in an AEC (Architecture, Engineering, Construction) industry program and/or enrolled in an AEC major at their college

1+ YEARS of previous job experience, any unrelated field is acceptable

Ability to commit to a minimum of 5 hours for 6 weeks for the internship

Students must be second year or above students

Desired Qualities

Knowledge of one or more of the following programs:

Revit
Rhino
Adobe Suite
Sketchup
Lumion
AutoCAD
Enscape
and/or other computer-assisted drafting software

Familiarity with architectural phases (e.g. Programming, Schematic Design, etc.)

Familiarity with building materials, codes, and construction methods

How does the program benefit students?

Career Skills

Students will gain insight and exposure to the AEC industry and gain relevant skills for their career path.

Students will also learn to apply skills directly to projects and to work collaboratively.

Networking+ Opportunities

Internship may lead to full-time position.

Students will develop a professional industry network for future opportunities and will have access to ARE licensing study.

Competitive Pay

Competitive pay from \$18+/hr DOE.

Intern Support

The employee offers interns support services such as Metro pass or paid parking.

Mentorship

Interns work and learn under regular supervision of a full-time professional AC Martin employee and will be assigned a mentor to ensure the goals of the internship are met.

AC MARTIN IS A CALIFORNIA BASED ARCHITECTURE, PLANNING, INTERIOR ARCHITECTURE, AND RESEARCH FIRM THAT USES AN INTEGRATED DESIGN APPROACH TO CREATE ENDURING ENVIRONMENTS FOR THE 21ST CENTURY WHILE FOSTERING A SUPPORTIVE ENVIRONMENT AND CELEBRATING INNOVATION.
