How We Can Help

Build Employer Partnerships

Foster relationships with local employers to align workforce needs with community college programs and create job opportunities for students.

Facilitate Job Placements

Facilitate regional job placement by working collaboratively with LA19 career services staff to connect students and alumni with employer hiring opportunities across the region, coordinate referrals and recruitment activities, and strengthen employer-to-student connections through information sessions, recruitment events, and other targeted engagement opportunities.

Track Outcomes & Report Metrics

Help monitor key performance indicators (KPIs) like job placements, employer satisfaction, and industry trends to improve program effectiveness and outcomes.

Create Work-Based Learning Opportunities

Collaborate with employers to develop internships and other hands-on learning experiences for students.

Collaborate with Colleges & Regional Partners

Enhance communication and participation between the 19 LARC colleges and industry to strengthen cross-sector engagement and the education-to-employment pipeline.

Promote Awareness of CTE

Increase awareness of Career and Technical Education (CTE) programs through outreach events, job fairs, and employer engagement activities.
